

# Priya Raghunathan

Senior Software Engineer (Java)

priya.r@example.com | +91 98200 11223 | Bengaluru, India

## PROFILE

Senior engineer with 7 years designing enterprise backend systems in Java and Spring Boot. Strong background in relational data modelling, REST API design and cloud deployment.

## SKILLS

Languages: Java, Kotlin, SQL, some Python

Frameworks: Spring Boot, Hibernate, JUnit

Data: PostgreSQL, Oracle, Cassandra, Kafka

Cloud: AWS (EC2, RDS, S3), Docker, Kubernetes, GitLab CI

Other: REST APIs, event-driven architecture, domain-driven design

## EXPERIENCE

Senior Software Engineer - Meridian Financial Systems, Bengaluru (2020 - Present)

Led design of a REST API platform in Spring Boot processing 2.3 million transactions daily against a PostgreSQL cluster on AWS RDS.

Reduced settlement batch runtime by 45% through query optimisation and caching.

Software Engineer - Ashwin Technologies, Chennai (2017 - 2020)

Built Java microservices and integration layers for insurance clients.

## EDUCATION

BE Computer Science, Anna University (2017)
