

Wei Chen

Data Analyst

wei.chen@example.com | +65 8123 4567 | Singapore

SUMMARY

Data analyst with 4 years turning operational data into decisions for retail and logistics teams. Strong SQL and reporting background with working knowledge of Python.

SKILLS

Analysis: SQL, Excel, Python (pandas, matplotlib), R

BI Tools: Tableau, Power BI, Looker

Data: PostgreSQL, BigQuery, Snowflake

Other: A/B testing, forecasting, stakeholder reporting, dashboard design

EXPERIENCE

Data Analyst - Sunrise Retail Asia, Singapore (2022 - Present)

Built the demand forecasting dashboard in Tableau used weekly by 40 store managers.

Wrote PostgreSQL queries and Python scripts to automate a reporting process that previously took two analysts three days each month.

Junior Analyst - Pacific Freight Solutions, Singapore (2021 - 2022)

Produced operational reporting on shipment delays and carrier performance.

EDUCATION

BSc Statistics, National University of Singapore (2021)
